INDIAN HEAD MASSAGE ~ £45

In the ancient Indian healing system of Ayurveda, Indian head massage works on the belief that ailments are caused by blockages in the energy flow around the body. Massage helps clear blockages returning the body to a state of health. It's often used for those suffering from stress, tension, headaches, sinusitis, ear problems, insomnia, hair loss, muscular tension and fatigue.

Indian head massage releases tension and can help you to relax and feel calmer. Anyone can benefit from the sense of wellbeing it induces.
